EXACT SCIENCES

EpicCare® Link™ & Exact Sciences

Simplified ordering & patient management

New and Improved Rescreen Ordering. Rescreening just became that much easier for your eligible rescreen patients through EpicCare® Link™. Here are the steps on how to get started:

Rescreen report

- View your patients who have screened 3 years ago

- View relevant patient data in a single report

- Multi-select patients eligible for rescreen and order for more than one patient at a time directly from the report should the provider determine Cologuard is medically appropriate

- Add and/or update patient insurance coverage, phone number and address directly from the Rescreen Report by clicking the folder icon

How to get started ordering rescreens

★ **NOW AVAILABLE: Steps on how to get started ordering rescreens**

1. Pull the Rescreen Report located in the Dashboards section

2. Determine patient eligibility for rescreening

3. If the patient has updated coverage or contact information, select the file folder located on the left-hand side of the report

    3a. Select the Demographics activity in the chart and click Edit

    3b. Update Contact Information as needed and click Save

4. Return to the report and continue selecting patients

5. After reviewing/selecting all you'd like, click Reorder

6. Read and click Continue in the compliance pop-up

7. Confirmation message – orders are placed
